

Fill Them with Your Power

Laura Hackett Park

Am

Would You open up the heavens and let Your Word
Come down, down, down, down, down

It's not over
You're not done with this generation

Am / / / G / C / F / / / G / / /

It's not over
You're not done with this generation

Am

Take weak men and women and fill them with Your power
Take weak men and women and fill them with Your power

(It's what You love to do, it's what You love to do
It's what You love to do)
